

Rooiels Hack

April 2026

Rooiels Hack

The Rooiels Hack takes place on the second Saturday of every month, led by Mike Christelis, and they meet at the Rooiels Village Shop at 08h30.

Mike Christelis reported that 20 volunteers attended the April Rooiels hack. The location for the April hack was Porter Drive between Mont Aux Mer and the distillery, where there was a big outbreak of Spider Gums as well as Rooikrans, Myrtle and even the odd pine. The output was amazing, and the entire verge was cleared all the way until the distillery. Some of the trees were massive, so the stacks of cuttings left behind were very impressive.

Well done to Mike and his team with the amazing work that they are doing in Rooiels.

Next hack will be Saturday 9 May 2026
